Carlos,

See below - I will be checking the former Corps IAG, and Carlene needs to here from us on the funding priorities.

Thanks,

Gary Miller

See attached SOW for expired multi-site IA. Please look this over and see if the work you are anticipating giving the USACE for the San Jacinto and Star Lake sites fits within this generic SOW. I talked with Carlene and as of last week, she was waiting to hear from Carols Sanchez, Charles Faultry, and John Myers to make sure funding for these sites under a new multi-site IA is one of their priorities.
